

DANNINA MANJU MUKESH

Email:24P31a0585@acet.ac.in || Phone: +91 9490692101 || LinkedIn: www.linkedin.com/in/manjumukeshdannina

PROFESSIONAL SUMMARY

Detail-oriented Computer Science and Engineering undergraduate with a strong academic foundation (CGPA: 9.06) and hands-on experience in software development, AI-based systems, and academic analytics platforms. Skilled in Python, Java, C, C++, SQL, HTML, CSS, and database-driven applications. Demonstrated ability in problem-solving, object-oriented programming, data handling, and project leadership, with a strong interest in Software Development, AI, and Internship opportunities.

EDUCATION

Bachelor of Technology – Computer Science and Engineering
Aditya College of Engineering and Technology, Surampalem
2024 – 2028
CGPA: 9.06

PROJECT EXPERIENCE

1. GRADE ACHIEVER & CODING MASTERY

AI-Powered Academic & Placement Readiness Platform

- Designed and developed an integrated academic tracking system to monitor CGPA, semester-wise performance, and academic progress
- Implemented AI-driven syllabus analysis to convert large academic content into structured, time-bound study plans
- Developed exam preparation and mock interview modules providing personalized feedback to improve technical readiness
- Built an ATS-based resume analysis module to enhance placement preparedness
- Centralized student achievements, academic data, and performance insights into a unified digital dashboard
- Applied software development life cycle (SDLC) principles including requirement analysis, design, development, and testing
- Led project planning, coordination, and task allocation among team members

Impact:

- Improved academic performance tracking and study efficiency
- Enhanced exam preparedness and interview confidence
- Delivered a scalable solution bridging academic learning and placement readiness

Technologies & Concepts Used:

Python, MongoDB, SQL, HTML, CSS, GitHub, AI-based analytics, OOP concepts, Data Handling

2. Centralized Student Affairs & Club Management Portal

Role: Full-Stack Developer

Tech Stack: Python (Flask), JavaScript, Tailwind CSS, REST APIs, MongoDB

- **Architected a Centralized Management Portal:** Engineered a full-stack dashboard application to streamline operations for the Dean of Student Affairs, centralizing the management of university clubs, extension activities, and the Student Activity Council (SAC).
- **Automated Data Processing & Ingestion:** Developed robust file-handling APIs allowing coordinators to upload and dynamically display data from Excel sheets, seamlessly parsing event logs and member lists into the backend database.
- **Built Dynamic Frontend Interfaces:** Implemented a highly responsive, premium web interface using React.js and Tailwind CSS, featuring complex glassmorphism design, interactive event calendars, and strict Role-Based Access Control (RBAC) for Dean and Coordinator views.
- **Engineered Visual Analytics Dashboard:** Integrated Chart.js to build an interactive analytics module, empowering administrators to filter and visualize participant data across multiple dimensions (School, Department, Year, Event) in real-time.
- **Automated Institutional Reporting:** Designed a consolidated reporting module that automatically aggregates unstructured data into formatted compliance reports (e.g., NAAC criteria 5.1, 5.2, 5.3), featuring one-click client-side PDF and Excel export functionality using html2pdf.js and SheetJS
- **Developed Advanced Data Grids:** Built a custom data-grid system with dynamic columns, advanced multi-level sorting, and multi-select filtering, allowing users to efficiently navigate and analyze thousands of student records without performance degradation.

TECHNICAL SKILLS

Programming Languages:

C, C++, Java, Python

Web Technologies:

HTML, CSS, JavaScript, ReactJS, NodeJS

Databases:

MongoDB, Oracle SQL

Core Computer Science Concepts:

Data Structures & Algorithms (Basic),
Object-Oriented Programming (OOP),
Database Management Systems (DBMS),
Software Development Life Cycle (SDLC),
Problem Solving, Debugging

Tools & Platforms:

GitHub, Microsoft Office, Cloud & AI Foundations

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 – AI Foundations Associate – Oracle Corporation
 - IT Specialist – HTML & CSS – Pearson Group
 - Gemini AI Foundational Associate – Google (STAR Academy)
 - C Essentials – 1 – Cisco
 - C Essentials – 2 – Cisco
-

ACHIEVEMENTS

- Selected for Smart India Internal Hackathon 2024–25
 - Selected as Top 5 Team – Google Hacksprint 2K25
 - Runner Up of the Tech sprint(Google Developer Groups – Aditya University) 2025-2026
-

LANGUAGES

English, Hindi, Telugu, Urdu
